ABOUT SOLARMATIC™

Go with Sydney's premium solar supplier, committed to quality, service & safety

Solarmatic provides customized energy solutions in Sydney. We focus on solar PV for residential and commercial, Solar battery storage solutions, repair, safeguarding and fixing of PV solar systems. We focus on providing the best customer experience. Our motto is to retain the consumer's trust by serving them the best. We have thousands of happy customers because of the quality and workmanship of our installations. We have successfully completed plentiful solar projects and have established the capability to develop the expansion of incorporated energy systems with distributors, developers, and installers making us the main performer in the sector of solar photovoltaic (PV) systems. These systems give you access to clean, green and low-cost electricity all day, every day.

OUR VISION

To provide the most compelling value in the solar energy industry. Value, as defined by our customers, means designing and installing the highest quality solar energy systems, on time, safely, with high customer satisfaction.

OUR MISSION

By providing unparalleled value, we will greatly accelerate the adoption of solar energy systems. This will give our customers, our communities, and our nation clean, abundant, low-cost, distributed, and renewable energy.
